

Masking Tape

Masking tape.

Properties:

- High temperature resistance
- High solvent and water resistance
- Prevents paint and varnish leakage
- No glue residue after removing
- adhesiveness to a broad range of surfaces

Advantages:

- Three different tape widths for multipurpose use
- Semitransparent tape material to ensure perfect tape adhesion to the surface
- The tape can be repeatedly moved to a proper position
- Leaves a sharp varnished edge after removing
- Suitable for both two-component and water-soluble paints and varnishes
- Simple application

Applications:

RETECH Masking Tape is a professional masking tape used especially to cover automotive parts when applying paint. Industrial use includes covering parts and plugging openings before manual pneumatic varnishing of welds, workpieces and other machine parts. It can be used in construction when painting and line finishing.

The bearing layer of **RETECH Masking Tape** is made of smooth paper, carrying rubber resin based glue. The masking tape has high tensile strength, low elasticity and excellent initial adhesiveness. The tape can be easily applied in a radius and can be repeatadle moved into proper position before painting. It has high solvent and water resistance. It prevents paint and varnish leakage onto the masked surface.

RETECH Masking Tape is very easy to remove with no tears, it creates a sharp edge after removal and leaves no glue residue.

Instructions for use:

Before applying the tape, the surface must be dust-free, degreased, dry and clean.

ONLY FOR PROFESSIONAL AND INDUSTRIAL USE!
