SOFT FINISHING FILM DISC

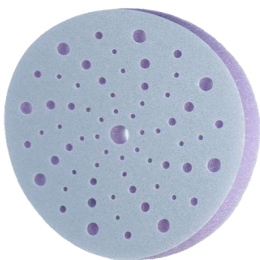

S2F SOFT FINISHING FILM DISC

Multipurpose highly flexible grinding wheel on a foil, made of aluminium oxide, laminated directly onto a soft foam pad. Used for quick and simple finishing of fillings' surface and for matting top coats and paints.

Properties:

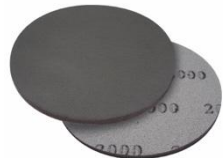

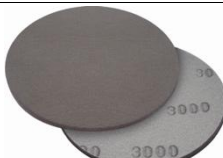

- creates uniform matted surfaces without leveling
- fully adapts to the base shape without sharp edge smoothing
- prevents wide and deep grinding grooves
- light and uniform abrasive effect even when applying stronger pressure
- can be used while dry and wet
- does not require cleaning, does not clog, does not stick
